Business Development Executive (Sales)

Onsite (Mira Road, Mumbai)

Full-time

2–4 Years

TAGS: IT Service Sales , IT Sales , B2B Sales , Software Testing Sales , QA Services Sales , Technology Sales , Lead Generation , Client Acquisition

Job Description:

Key Responsibilities:

- Generate qualified leads through online research, networking, and professional platforms.
- Identify and approach potential clients in need of **software testing and QA services**.
- Conduct client meetings (in-person and virtual) to present Testriq's offerings and value proposition.
- Understand client pain points related to **software quality, performance, and testing** needs, and suggest suitable service solutions.
- Collaborate with the technical/QA team to prepare customized proposals and quotations.
Follow up consistently with prospects to drive deal closures and achieve revenue targets.
- Maintain a strong sales pipeline and accurate records in CRM or tracking tools.

Requirements:

- Excellent communication and interpersonal skills (verbal and written).
- Strong presentation, negotiation, and persuasion abilities.
- Proven experience in **IT service or B2B sales** (experience in software testing or QA domain sales).
- Ability to understand basic technical concepts related to software development and testing processes.
- Proficient in using CRM tools, email outreach, and lead management systems
